Combos for business

SIGNATURE SLIM WIRED COMBO MK620 FOR BUSINESS

Multi-OS keyboard and mouse for workplaces that require wired solutions.

Signature Slim Wired Combo MK620 for Business consumes 49% less energy thanks to technology advancements⁷Consumes 50% less energy on the mouse and 49% on the keyboard when compared with the MK120 Combo. such as optimizing LED function and improving sensor power efficiency. SmartWheel technology offers two kinds of scrolling for different work tasks. Flick the mouse wheel for precise, line-by-line scrolling for documents or detail work, or for super-fast scrolling for long web pages and endless rows of spreadsheet cells. The keyboard features low-profile, laptop-style keys that are thoughtfully designed with a subtle scoop to deliver a high-quality typing experience. The fluid keystrokes feel instantly familiar, and the smooth keys offer precise and efficient typing. Ideal for touch typists.

SIGNATURE SLIM COMBO MK950 FOR BUSINESS

Wireless keyboard/mouse combo with laptop-style typing, super fast scrolling, and multi-device switching.

Feel the combination of contemporary design and improved comfort. Signature Slim Combo MK950 features a full-size keyboard with modern lines and a slim profile, plus a contoured mouse shaped to support the palm. It's the experience that people want, at a price for mass deployment. Low profile, laptop-style keys are designed with a subtle "scoop" to offer a familiar typing experience, allowing users to type with precision, efficiency, and confidence. Type as your mind flows, the fluid typing experience is ideal for touch typists. Signature Slim Combo offers quality design, and much more. Employees can efficiently switch between precise and super fast scrolling, go from the laptop to a mobile phone with Easy-Switch, and take advantage of preset shortcut keys. Stay focused with quiet keys and clicks.

SIGNATURE MK650 COMBO FOR BUSINESS

The upgrade everyone deserves.

The Signature MK650 Combo for Business is designed for all day comfort. The keyboard's integrated palm rest and familiar keystrokes complement the soft thumb area and rubber side grips of the mouse. All helping to make working hours feel less like work. Worry less about failing batteries and down time. The Signature MK650 Combo for Business includes a AA mouse battery that lasts up to 24 months and two AA batteries for the keyboard which last up to 36 months¹. The Signature MK650 Combo for Business is compatible with every major operating system and platform, so it's easy to deploy and manage in a multi-platform environment. This can reduce IT help desk headaches and improve employee inefficiency.

Combos for business

MX KEYS COMBO FOR BUSINESS | GEN 2

The ultimate performance combo, perfected.

Our top-of-the-line combo is now paired for even greater performance. The improved MX Master 3S mouse's Quiet Click technology makes 90% less distracting click noise and its 8000 DPI optical sensor offers precision tracking on high resolution monitors. The full-size, auto backlit keyboard integrates a metal plate for stability. With the MX Palm Rest as the perfect companion for all-day comfort. The Perfect Stroke keys are spherically dished, matching fingertip shape, for a natural keystroke. The mouse's contour shape fits the hand perfectly. This combo addresses increasing IT security needs with Logi Bolt technology for secure, robust connections even in congested wireless environments. And it's pre-paired to both devices for easy deployment and management. The mouse's ingenious MagSpeed™ wheel is our fastest and most precise scrolling experience—this duo is ready for any job.

Warranty: 2 years

MX KEYS MINI COMBO FOR BUSINESS

Pro Tools for Pro Work

For employees with more advanced workflows, the MX Keys Mini Combo for Business packs performance and versatility in a minimalist design that opens up more desk space and improves productivity. Available in graphite, the high performance combo features the portable MX Anywhere 3 for Business mouse and the powerful, compact MX Keys Mini for Business keyboard. The rechargeable plug-and-play combo is compatible with every major operating system, making it easy to deploy and manage. The keyboard provides a fluid typing experience with great tactile response. Backlit keys shine bright with smarter power management, automatically adjusting brightness to preserve battery life. The mouse tracks on nearly every surface –including glass –and the MagSpeed wheel provides users with faster, more precise scrolling, down to the pixel.

Warranty: 2 years

MK370 COMBO FOR BUSINESS

Our most popular combo, upgraded for business.

MK370 Combo for Business is Logitech's top-selling combo upgraded for the enterprise. This wireless productivity duo comes out of the box ready to perform. The combo has a spill resistant full-sized keyboard, silent-touch mouse, eight preprogrammed shortcut keys, and Logi Bolt for secure and robust wireless connectivity. A pre-paired Logi Bolt USB receiver connects both keyboard and mouse for a no-fuss set up. For even more flexibility, download Logi Options+ app, which features predefined control profiles for popular business applications and can be customized for repetitive tasks. Logi Options+ also allows IT help desk staff to remotely deploy and manage the combo with en masse firmware updates.

WAVE KEYS FOR BUSINESS

Ergonomic keyboard with wave design and cushioned palm rest for all-day comfort.

Work in all-day comfort with an easy-to-use ergonomic keyboard that features a wave design and cushioned palm rest. Wave Keys for Business is easy to deploy and checks all the boxes for IT — security, global availability, compatibility, and sustainability. Support wellbeing with an ergonomic keyboard that improves employee comfort at work — without compromising efficiency. The wave design and cushioned palm rest with memory foam put wrists and forearms in a more natural and relaxed position to make typing fluid and easy. Wave Keys for Business provides two ways to connect wirelessly: Bluetooth® Low Energy or the Logi Bolt USB-A receiver. Logi Bolt ensures that connections are fully encrypted and FIPS secure, and offers reliable and secure connectivity in congested environments.

Precision. Performance. Mastery.

ERGO K860 SLIPT KEYBOARD FOR BUSINESS

Science-Driven Ergonomics.

Free users to focus with a science-driven ergonomic keyboard that promotes a more relaxed, natural typing experience designed for hours of comfortable use. Easy-Switch™ lets multi-computer users easily switch between up to three computers running the leading operating systems with the touch of a key. Physical discomfort can lead to emotional stress. Reducing pressure, strain, twisting, and bending while adding support leads to a greater level of comfort—immediately and over long periods. Ergonomic products increase comfort so people can be free to focus on what matters.

SIGNATURE SLIM WIRED K620 FOR BUSINESS

Wired multi-OS keyboard with laptop-style typing for shared workstations.

Wired solutions are essential to certain industries. Signature Slim Wired K620 for Business brings an improved experience to those workplaces with high-quality, fluid typing, fast-access to AI tools¹ Out of the box, the key launches Copilot in Windows or Gemini for ChromeOS if available on your device. Visit logitech.com/support/K620B for more details. , and more. Works with multiple OS for simple deployment. The keyboard features low-profile, laptop-style keys that are thoughtfully designed with a subtle scoop to deliver a high-quality typing experience. The fluid keystrokes are quiet and feel instantly familiar, and the smooth keys offer precise and efficient typing. Ideal for touch typists.

Crafted form meets intuitive control

MX MASTER 3S FOR BUSINESS

Our best mouse, upgraded for enhanced productivity and comfort.

The MX Master 3S for Business is our premier offering with significant upgrades for both ITDMs and users. For busy IT departments, it offers more security and better compatibility. Logi Bolt addresses rising security needs with fully encrypted Secured Connections Only mode that's FIPS compliant and robust even in congested wireless environments. And it's certified in 100+ countries with support for IT pros. For users, its 8000 DPI "Darkfield" tracking makes work on high-resolution monitors faster and more accurate—even on glass. MagSpeed Scrolling zips down 1000 lines of code or spreadsheet cells in just a second. Or with line-by-line precision. Its ergonomic design lessens forearm fatigue with a sculpted shape that cradles the hand for all-day comfort. It's also 90% quieter with Quiet Click technology for less distraction and better focus for everyone.

Here, there, anywhere

LIFT FOR BUSINESS

Lift for Business is designed for all-day comfort.

Ergo products like Lift for Business place fingers and hands in a more natural posture, helping to relax the upper body. This leads to a quantifiable reduction in muscle activity, so work is more productive with less strain and forearm muscle fatigue. Reducing muscle strain and fatigue, while adding proper hand support, leads to a greater comfort, especially during long periods of work. Ergonomically-designed products help people focus on what matters. Ergonomic equipment helps people work more comfortably, with higher efficiency and quality, with less downtime. It results in happier employees with lower absentee days. In short, ergonomics is good economics. Our Ergo Series can help your company become a healthier place to work.

ERGO M575 WIRELESS TRACKBALL FOR BUSINESS

With science-driven design and easy thumb control, this wireless trackball mouse is engineered to reduce hand movement, keeping the hand and arm relaxed, providing hours of comfort.

Designed with the Logi Ergo Lab experts, ERGO M575 Trackball is tested by users and approved by US Ergonomics. The science-driven design delivers an improved experience and a comfortable shape that fits most hands. Easy-to reach side buttons and the middle click of the scroll wheel are customizable with Logi Tune. To customize device, download Logi Tune for Windows or macOS at logi.com/tune. Adjust the cursor speed to achieve the desired tracking precision. A high-performance optical sensor allows you to move the cursor with your thumb with great precision and control. And because you don't move the mouse itself when tracking, it works on any surface.

Full encryption and secure connections only

LOGI BOLT

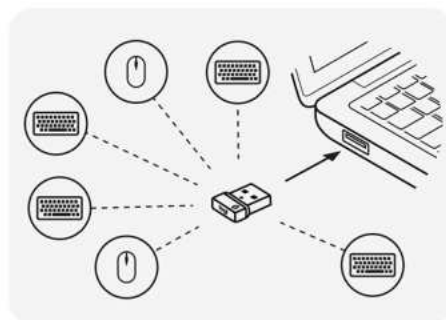

- FOR BACKUP OR MULTI-COMPUTER USE
- RELIABLE, SECURE WIRELESS
- DISCRETE AND CONVENIENT
- EASY PAIRING

USB receiver to be used with your Logi Bolt wireless mouse and keyboard. It's Logitech's next-gen wireless technology — delivering a high-performance, secure wireless connection when compatible mice and keyboards are connected via Logi Bolt USB receiver.

ONE RECEIVER – 6 DEVICES

Connect up to 6 Logi Bolt wireless keyboards and mice to one computer with a single Logi Bolt receiver – and forget the hassle of multiple USB receivers. Plus, keep one wireless keyboard/mouse set in each workspace, then simply move your laptop into range. No need to carry or commute with mice or keyboards.
